Templates due November 19, 2018

Hi Leif, with apologies for the lateness, I'm attaching two completed templates: one for the E15/RIN market reform rule, and one for the aircraft standard.

We have one template (RFS reset rule) for which additional internal OTAQ discussion is necessary. We thought we'd be done by today but we've had a key manager out and we need that manager's input before submitting the template. We should have that to you by Monday or Tuesday at the latest.

Thanks, Ben

Subject: FW: SAB review of the Fall 2018 Agenda and Previously deferred actions
Templates due November 19, 2018

All –

There are seven OAR actions in the Fall 2018 regulatory agenda have been identified for SAB consideration (table copied below). Our next steps are to complete the attached template to provide summary information on each action to the SAB. If you all could work with your staff to complete them in the most appropriate manner that would be a great help. There are actions similar to other actions you provided templates for previously (RTR and RFS), so please let me know if you need those previous templates to use as a guide.

Please send me your completed templates by COB Thursday November 15. At that point we can provide the completed templates to the OAR IO for review and then send them along to the EPA staff office for the SAB.

Thanks,
Leif

Subject: SAB review of the Fall 2018 Agenda and Previously deferred actions Templates due November 19, 2018

Greetings,

I have two requests regarding the SAB screening review of the Regulatory Deregulatory Agenda:

1. <!--[if !supportLists]--><!--[endif]-->Complete a template to update the Board on the status of your organizations planned actions that the Board deferred providing advice and comment on the scientific and technical adequacy of the action, and
2. <!--[if !supportLists]--><!--[endif]-->Complete a template for your organizations planned actions in the Fall 2018 Agenda

Templates are due November 19, 2018.

Deferred Actions

The SAB is awaiting information on 4 actions for which insufficient information was available to determine if the SAB should provide advice and comment on the action. Please complete a template to update the SAB on the status of these actions. If you need the original templates provided to the SAB, the SAB work group response, or the SAB letter to the Administrator please let me know and I will send them under separate cover.

The organization and planned actions are:

- OAR, 2060-AT26 Control of Air Pollution From Aircraft and Aircraft Engines: Proposed GHG Emissions Standards and Test Procedures.
- OW, 2040-AF75 Revised Definition of "Waters of the United States".
- OCSPP 2070-AK34 Regulation of Persistent, Bioaccumulative, and Toxic Chemicals Under TSCA Section 6(h)
- OP 2010-AA12 Increasing Consistency and Transparency in Considering Costs and Benefits in the Rulemaking Process

Fall 2018 Agenda

The Office of Policy identified 13 actions to be considered by the SAB in their evaluation of the supporting science for planned actions based on the protocols developed by EPA. The 13 actions that need a completed template and responsible program office are listed in the table below and attached spreadsheet. I confirmed the major actions by current tier status (Tier 1 or 2) and rulemaking stage (active, pre-proposal, proposed and long-term) with OP.

On March 31, 2015 the Office of Policy distributed the Process and Best Practices for EPA Engagement with the Science Advisory Board in SAB Screening of the Scientific Basis for Major Agency Planned Actions to program offices as an instructional guide. It provides the best practices for developing and sharing information with the SAB for the this process. I have attached a PDF of that document for your convenience. Also attached is a word version of the annotated template for you to complete. Please note that several of the actions are related to previous reviews conducted by the SAB or are associated with actions that have been identified as actions the SAB find merits review by the Board.

<u>RIN</u>	<u>Title</u>	<u>Agenda Stage of Rulemaking</u>	<u>Agency</u>

Subject: Fall 2018 Agenda and Plan published

Greetings:

Today OMB released the Fall 2018 Unified Agenda and Regulatory Plan. To assist your search, I've compiled the attached spreadsheet with key data. **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

EPA's completed FY18 completed regulatory and deregulatory activities, as well as a projected FY19 accounting budget under EO 13771, are available at:
<https://www.reginfo.gov/public/do/eAgendaEO13771>.

The Agenda is available at: <https://www.reginfo.gov/public/do/eAgendaMain>; note that using the "Search > Advanced Search" features are most useful. You may also wish to use the links embedded in the spreadsheet to view individual actions.

The Plan Statement of Priorities is available at:
https://www.reginfo.gov/public/jsp/eAgenda/StaticContent/201810/Statement_2000.html.

OMB has released a statement, and EPA is likely to publish a press release today as well.
See: <https://www.whitehouse.gov/briefings-statements/regulatory-relief-efforts-deliver-23-billion-regulatory-cost-savings/>.

Additionally, the SAB staff office has requested updated templates for previous actions that the SAB deferred examination. They have asked for an updated template to be provided for:

- OAR, 2060-AT26 Control of Air Pollution From Aircraft and Aircraft Engines: Proposed GHG Emissions Standards and Test Procedures.

This was an action in the Fall 2016 regulatory agenda and I have included the template you all provided previously. If you could update it for further consideration by the SAB, as appropriate, that would be appreciated. Please also provide this template by COB Thursday November 15.

Thanks,
 Leif

Subject: FW: SAB review of the Fall 2018 Agenda and Previously deferred actions Templates due November 19, 2018

All –

There are seven OAR actions in the Fall 2018 regulatory agenda have been identified for SAB consideration (table copied below). Our next steps are to complete the attached template to provide summary information on each action to the SAB. If you all could work with your staff to complete them in the most appropriate manner that would be a great help.

There are actions similar to other actions you provided templates for previously (RTR and RFS), so please let me know if you need those previous templates to use as a guide.

Please send me your completed templates by COB Thursday November 15. At that point we can provide the completed templates to the OAR IO for review and then send them along to the EPA staff office for the SAB.

Thanks,
Leif

<u>RIN</u>	<u>Title</u>	<u>Agenda Stage of Rulemaking</u>	<u>Agency</u>

Subject: SAB review of the Fall 2018 Agenda and Previously deferred actions Templates due November 19, 2018

Greetings,

I have two requests regarding the SAB screening review of the Regulatory Deregulatory Agenda:

- 1) Complete a template to update the Board on the status of your organizations planned actions that the Board deferred providing advice and comment on the scientific and technical adequacy of the action, and
- 2) Complete a template for your organizations planned actions in the Fall 2018 Agenda

Templates are due November 19, 2018.

Deferred Actions

The SAB is awaiting information on 4 actions for which insufficient information was available to determine if the SAB should provide advice and comment on the action. Please complete a template to update the SAB on the status of these actions. If you need the original templates provided to the SAB, the SAB work group response, or the SAB letter to the Administrator please let me know and I will send them under separate cover.

The organization and planned actions are:

- OAR, 2060-AT26 Control of Air Pollution From Aircraft and Aircraft Engines: Proposed GHG Emissions Standards and Test Procedures.
- OW, 2040-AF75 Revised Definition of "Waters of the United States".
- OCSPP 2070-AK34 Regulation of Persistent, Bioaccumulative, and Toxic Chemicals Under TSCA Section 6(h)
- OP 2010-AA12 Increasing Consistency and Transparency in Considering Costs and Benefits in the Rulemaking Process

Fall 2018 Agenda

The Office of Policy identified 13 actions to be considered by the SAB in their evaluation of the supporting science for planned actions based on the protocols developed by EPA. The 13 actions that need a completed template and responsible program office are listed in the table below and attached spreadsheet. I confirmed the major actions by current tier status (Tier 1 or 2) and rulemaking stage (active, pre-proposal, proposed and long-term) with OP.

On March 31, 2015 the Office of Policy distributed the Process and Best Practices for EPA Engagement with the Science Advisory Board in SAB Screening of the Scientific Basis for Major Agency Planned Actions to program offices as an instructional guide. It provides the best practices for developing and sharing information with the SAB for the this process. I have attached a PDF of that document for your convenience. Also attached is a word version of the annotated template for you to complete. Please note that several of the actions are related to previous reviews conducted by the SAB or are associated with actions that have been identified as actions the SAB find merits review by the Board.

<u>RIN</u>	<u>Title</u>	<u>Agenda Stage of Rulemaking</u>	<u>Agency</u>
------------	--------------	-----------------------------------	---------------

<u>2040-AF77</u>	Effluent Limitations Guidelines and Standards for the Steam Electric Power Generating Point Source Category	Proposed Rule Stage	EPA/OW
<u>2040-AF88</u>	Clean Water Act Section 404(c) Regulatory Revision	Proposed Rule Stage	EPA/OW
<u>2050-AE34</u>	Management of Cement Kiln Dust (CKD)	Long-Term Actions	EPA/OLEM
<u>2050-AG84</u>	Water Resources Reform Development Act Farm Amendments to the Spill Prevention Control and Countermeasures Rule	Long-Term Actions	EPA/OLEM
<u>2050-AH03</u>	Financial Responsibility Requirements Under CERCLA Section 108(b) for the Additional Classes	Proposed Rule Stage	EPA/OLEM
<u>2060-AM75</u>	Reclassification of Major Sources as Area Sources Under Section 112 of the Clean Air Act	Proposed Rule Stage	EPA/OAR
<u>2060-AU16</u>	National Emission Standards for Hazardous Air Pollutants: Miscellaneous Coating Manufacturing Residual Risk and Technology Review	Proposed Rule Stage	EPA/OAR
<u>2060-AU18</u>	National Emission Standards for Hazardous Air Pollutants: Municipal Solid Waste Landfills Residual Risk and Technology Review	Proposed Rule Stage	EPA/OAR
<u>2060-AU19</u>	National Emission Standards for Hazardous Air Pollutants: Site Remediation Residual Risk and Technology Review	Proposed Rule Stage	EPA/OAR
<u>2060-AU24</u>	Reconsideration of Standards of Performance and Emission Guidelines for Municipal Solid Waste Landfills	Proposed Rule Stage	EPA/OAR
<u>2060-AU28</u>	Renewable Fuel Standard Program Modification of Applicable Volumes, 2020 Standards, and Other Changes	Proposed Rule Stage	EPA/OAR
<u>2060-AU34</u>	Modifications to Fuel Regulations to Provide Flexibility for E15; Modifications to RFS RIN Market Regulations	Proposed Rule Stage	EPA/OAR

<u>2070-AJ82</u>	Residential Dust-Lead Hazard Standards, and the Definition of Lead-Based Paint	Final Rule Stage	EPA/OCSP
<u>2070-AK46</u>	N-Methylpyrrolidone; Regulation of Certain Uses Under TSCA Section 6(a)	Long-Term Actions	EPA/OCSP

Please provide your Office's completed templates to me by November 19, 2018 . The SAB Staff Office will convene the Work Group after materials are provided.

Please call if you have any questions.

Best,
Tom

Subject: Fall 2018 Agenda and Plan published

Greetings:

Today OMB released the Fall 2018 Unified Agenda and Regulatory Plan. To assist your search, I've compiled the attached spreadsheet with key data.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

EPA's completed FY18 completed regulatory and deregulatory activities, as well as a projected FY19 accounting budget under EO 13771, are available at: <https://www.reginfo.gov/public/do/eAgendaEO13771>.

The Agenda is available at: <https://www.reginfo.gov/public/do/eAgendaMain>; note that using the "Search > Advanced Search" features are most useful. You may also wish to use the links embedded in the spreadsheet to view individual actions.

The Plan Statement of Priorities is available at:

https://www.reginfo.gov/public/jsp/eAgenda/StaticContent/201810/Statement_2000.html.

OMB has released a statement, and EPA is likely to publish a press release today as well. See:

<https://www.whitehouse.gov/briefings-statements/regulatory-relief-efforts-deliver-23-billion-regulatory-cost-savings/>.

Clint, I know you're reviewing too. Here's what I saw when I flipped through.

List of items that have already been signed or that may be signed in the next 7-10 days so may need updating in the reg agenda (depending on the timing for reg agenda publishing). Programs probably will catch all of these, but sending just in case:

- p. 9 Uranium Rule (ORIA): in OP for review, could be signed soon
- p. 34 Amino Phenolic Resins (OAQPS): in OP for review, should be signed soon
- p. 84-88 Section 126 petitions (OAQPS): all 5 were recently signed
- p. 136 light duty vehicle tech amendments: recently signed
- p. 166 Baton Rouge RVP: could be signed soon

Henry – Here are highlights on a couple of issues that may come up in your meeting:

1. MATS: **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

2. EGU GHG NSPS NPRM: **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

3. Aircraft GHG rule (i.e., “ICAO proposal”): The Obama administration worked with the international aviation body called ICAO to negotiate international standards for GHG emissions from commercial aircraft. They proposed and took final action on an endangerment/contribution finding for GHG emissions from aircraft. That finding triggered the obligation to regulate GHG emissions from aircraft under the CAA. That finding was challenged and the case is being held in abeyance in the DC Circuit pending

reconsideration

Thanks for the response Bryan.

I ask because at EASA they have made a new Certification Specification for CO2 (CS-CO₂). So I was curious if EPA will do the same.

Thanks for clarifying.

Hi Dan,

Sorry it took me awhile to respond to your email after returning from vacation. Yes, we are still planning for the regulations to be in 40 CFR part 87 for the aircraft CO2 proposed rule. We believe it makes most sense for the CO2 regulations to go into this part. Why do you ask?

Thank you,

Bryan

Subject: CO2 Rule question

Hi Bryan,
I hope all is well and you are enjoying summer.

Based on schedules EPA discussed with Boeing last December, the CO2 Rule should be going to OMB soon.

I was looking at the RIN 2060-AT26 again, which states the CO2 rule will be in 40 CFR 87. The RIN was published a few months ago, is the CO2 rule still in 40 CFR 87?

Thanks.

All –

There are seven OAR actions in the Fall 2018 regulatory agenda have been identified for SAB consideration (table copied below). Our next steps are to complete the attached template to provide summary information on each action to the SAB. If you all could work with your staff to complete them in the most appropriate manner that would be a great help. There are actions similar to other actions you provided templates for previously (RTR and RFS), so please let me know if you need those previous templates to use as a guide.

Please send me your completed templates by COB Thursday November 15. At that point we can provide the completed templates to the OAR IO for review and then send them along to the EPA staff office for the SAB.

Thanks,
Leif

Subject: SAB review of the Fall 2018 Agenda and Previously deferred actions Templates due November 19, 2018

Greetings,

I have two requests regarding the SAB screening review of the Regulatory Deregulatory Agenda:

- 1) Complete a template to update the Board on the status of your organizations planned actions that the Board deferred providing advice and comment on the scientific and technical adequacy of the action, and
- 2) Complete a template for your organizations planned actions in the Fall 2018 Agenda

Templates are due November 19, 2018.

Deferred Actions

The SAB is awaiting information on 4 actions for which insufficient information was available to determine if the SAB should provide advice and comment on the action. Please complete a template to update the SAB on the status of these actions. If you need the original templates provided to the SAB, the SAB work group response, or the SAB letter to the Administrator please let me know and I will send them under separate cover.

The organization and planned actions are:

- OAR, 2060-AT26 Control of Air Pollution From Aircraft and Aircraft Engines: Proposed GHG Emissions Standards and Test Procedures.
- OW, 2040-AF75 Revised Definition of "Waters of the United States".
- OCSPP 2070-AK34 Regulation of Persistent, Bioaccumulative, and Toxic Chemicals Under TSCA Section 6(h)
- OP 2010-AA12 Increasing Consistency and Transparency in Considering Costs and Benefits in the Rulemaking Process

Fall 2018 Agenda

The Office of Policy identified 13 actions to be considered by the SAB in their evaluation of the supporting science for planned actions based on the protocols developed by EPA. The 13 actions that need a completed template and responsible program office are listed in the table below and attached spreadsheet. I confirmed the major actions by current tier status (Tier 1 or 2) and rulemaking stage (active, pre-proposal, proposed and long-term) with OP.

On March 31, 2015 the Office of Policy distributed the Process and Best Practices for EPA Engagement with the Science Advisory Board in SAB Screening of the Scientific Basis for Major Agency Planned Actions to program offices as an instructional guide. It provides the best practices for developing and sharing information with the SAB for the this process. I have attached a PDF of that document for your convenience. Also attached is a word version of the annotated template for you to complete. Please note that several of the actions are related to previous reviews conducted by the SAB or are associated with actions that have been identified as actions the SAB find merits review by the Board.

<u>RIN</u>	<u>Title</u>	<u>Agenda Stage of Rulemaking</u>	<u>Agency</u>

Subject: Fall 2018 Agenda and Plan published

Greetings:

Today OMB released the Fall 2018 Unified Agenda and Regulatory Plan. To assist your search, I've compiled the attached spreadsheet with key data.

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

EPA's completed FY18 completed regulatory and deregulatory activities, as well as a projected FY19 accounting budget under EO 13771, are available at: <https://www.reginfo.gov/public/do/eAgendaEO13771>.

The Agenda is available at: <https://www.reginfo.gov/public/do/eAgendaMain>; note that using the "Search > Advanced Search" features are most useful. You may also wish to use the links embedded in the spreadsheet to view individual actions.

The Plan Statement of Priorities is available at:
https://www.reginfo.gov/public/jsp/eAgenda/StaticContent/201810/Statement_2000.html.

OMB has released a statement, and EPA is likely to publish a press release today as well. See:
<https://www.whitehouse.gov/briefings-statements/regulatory-relief-efforts-deliver-23-billion-regulatory-cost-savings/>.

Clint -

Please find attached 6 templates provided by OAQPS and OTAQ in response to the SAB's request on OAR actions in the Fall 2018 reg agenda.

One additional template is provided in response to an additional request from the SAB staff office to update templates for previous actions that the SAB deferred examination (i.e., aircraft and aircraft engines GHG emissions standards (2060-AT26 from Fall 2016)).

OTAQ plans to provide its final template on the RFS reset rule but had some management absences which delayed its review. They should provide it very soon.

I will pass along this final template once I receive it, but please let us know any feedback you have on the other templates I have provided. I hope you have a nice weekend.

Thanks,
 Leif

Subject: FW: SAB review of the Fall 2018 Agenda and Previously deferred actions Templates due November 19, 2018

All –

There are seven OAR actions in the Fall 2018 regulatory agenda have been identified for SAB consideration (table copied below). Our next steps are to complete the attached template to provide summary information on each action to the SAB. If you all could work with your staff to complete them in the most appropriate

manner that would be a great help. There are actions similar to other actions you provided templates for previously (RTR and RFS), so please let me know if you need those previous templates to use as a guide.

Please send me your completed templates by COB Thursday November 15. At that point we can provide the completed templates to the OAR IO for review and then send them along to the EPA staff office for the SAB.

Thanks,
Leif

<u>RIN</u>	<u>Title</u>	<u>Agenda Stage of Rulemaking</u>	<u>Agency</u>
<u>2060-AM75</u>	Reclassification of Major Sources as Area Sources Under Section 112 of the Clean Air Act	Proposed Rule Stage	EPA/OAR
<u>2060-AU16</u>	National Emission Standards for Hazardous Air Pollutants: Miscellaneous Coating Manufacturing Residual Risk and Technology Review	Proposed Rule Stage	EPA/OAR
<u>2060-AU18</u>	National Emission Standards for Hazardous Air Pollutants: Municipal Solid Waste Landfills Residual Risk and Technology Review	Proposed Rule Stage	EPA/OAR
<u>2060-AU19</u>	National Emission Standards for Hazardous Air Pollutants: Site Remediation Residual Risk and Technology Review	Proposed Rule Stage	EPA/OAR
<u>2060-AU24</u>	Reconsideration of Standards of Performance and Emission Guidelines for Municipal Solid Waste Landfills	Proposed Rule Stage	EPA/OAR
<u>2060-AU28</u>	Renewable Fuel Standard Program Modification of Applicable Volumes, 2020 Standards, and Other Changes	Proposed Rule Stage	EPA/OAR
<u>2060-AU34</u>	Modifications to Fuel Regulations to Provide Flexibility for E15; Modifications to RFS RIN Market Regulations	Proposed Rule Stage	EPA/OAR

Subject: SAB review of the Fall 2018 Agenda and Previously deferred actions Templates due November 19, 2018

Greetings,

I have two requests regarding the SAB screening review of the Regulatory Deregulatory Agenda:

1. Complete a template to update the Board on the status of your organizations planned actions that the Board deferred providing advice and comment on the scientific and technical adequacy of the action, and
2. Complete a template for your organizations planned actions in the Fall 2018 Agenda

Templates are due November 19, 2018.

Deferred Actions

The SAB is awaiting information on 4 actions for which insufficient information was available to determine if the SAB should provide advice and comment on the action. Please complete a template to update the SAB on the status of these actions. If you need the original templates provided to the SAB, the SAB work group response, or the SAB letter to the Administrator please let me know and I will send them under separate cover.

The organization and planned actions are:

- OAR, 2060-AT26 Control of Air Pollution From Aircraft and Aircraft Engines: Proposed GHG Emissions Standards and Test Procedures.
- OW, 2040-AF75 Revised Definition of "Waters of the United States".
- OCSPP 2070-AK34 Regulation of Persistent, Bioaccumulative, and Toxic Chemicals Under TSCA Section 6(h)
- OP 2010-AA12 Increasing Consistency and Transparency in Considering Costs and Benefits in the Rulemaking Process

Fall 2018 Agenda

The Office of Policy identified 13 actions to be considered by the SAB in their evaluation of the supporting science for planned actions based on the protocols developed by EPA. The 13 actions that need a completed template and responsible program office are listed in the table below and attached spreadsheet. I confirmed

the major actions by current tier status (Tier 1 or 2) and rulemaking stage (active, pre-proposal, proposed and long-term) with OP.

On March 31, 2015 the Office of Policy distributed the Process and Best Practices for EPA Engagement with the Science Advisory Board in SAB Screening of the Scientific Basis for Major Agency Planned Actions to program offices as an instructional guide. It provides the best practices for developing and sharing information with the SAB for the this process. I have attached a PDF of that document for your convenience. Also attached is a word version of the annotated template for you to complete. Please note that several of the actions are related to previous reviews conducted by the SAB or are associated with actions that have been identified as actions the SAB find merits review by the Board.

<u>RIN</u>	<u>Title</u>	<u>Agenda Stage of Rulemaking</u>	<u>Agency</u>
<u>2040-AF77</u>	Effluent Limitations Guidelines and Standards for the Steam Electric Power Generating Point Source Category	Proposed Rule Stage	EPA/OW
<u>2040-AF88</u>	Clean Water Act Section 404(c) Regulatory Revision	Proposed Rule Stage	EPA/OW
<u>2050-AE34</u>	Management of Cement Kiln Dust (CKD)	Long-Term Actions	EPA/OLEM
<u>2050-AG84</u>	Water Resources Reform Development Act Farm Amendments to the Spill Prevention Control and Countermeasures Rule	Long-Term Actions	EPA/OLEM
<u>2050-AH03</u>	Financial Responsibility Requirements Under CERCLA Section 108(b) for the Additional Classes	Proposed Rule Stage	EPA/OLEM
<u>2060-AM75</u>	Reclassification of Major Sources as Area Sources Under Section 112 of the Clean Air Act	Proposed Rule Stage	EPA/OAR
<u>2060-AU16</u>	National Emission Standards for Hazardous Air Pollutants: Miscellaneous Coating Manufacturing Residual Risk and Technology Review	Proposed Rule Stage	EPA/OAR
<u>2060-AU18</u>	National Emission Standards for Hazardous Air Pollutants: Municipal Solid Waste Landfills Residual Risk and Technology Review	Proposed Rule Stage	EPA/OAR
<u>2060-AU19</u>	National Emission Standards for Hazardous Air Pollutants: Site Remediation Residual Risk and Technology Review	Proposed Rule Stage	EPA/OAR

<u>2060-AU24</u>	Reconsideration of Standards of Performance and Emission Guidelines for Municipal Solid Waste Landfills	Proposed Rule Stage	EPA/OAR
<u>2060-AU28</u>	Renewable Fuel Standard Program Modification of Applicable Volumes, 2020 Standards, and Other Changes	Proposed Rule Stage	EPA/OAR
<u>2060-AU34</u>	Modifications to Fuel Regulations to Provide Flexibility for E15; Modifications to RFS RIN Market Regulations	Proposed Rule Stage	EPA/OAR
<u>2070-AJ82</u>	Residential Dust-Lead Hazard Standards, and the Definition of Lead-Based Paint	Final Rule Stage	EPA/OCSP
<u>2070-AK46</u>	N-Methylpyrrolidone; Regulation of Certain Uses Under TSCA Section 6(a)	Long-Term Actions	EPA/OCSP

Please provide your Office's completed templates to me by November 19, 2018 . The SAB Staff Office will convene the Work Group after materials are provided.

Please call if you have any questions.

Best,
Tom

Subject: Fall 2018 Agenda and Plan published

Greetings:

Today OMB released the Fall 2018 Unified Agenda and Regulatory Plan. To assist your search, I've compiled the attached spreadsheet with key data:

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

EPA's completed FY18 completed regulatory and deregulatory activities, as well as a projected FY19 accounting budget under EO 13771, are available at: <https://www.reginfo.gov/public/do/eAgendaEO13771>.

The Agenda is available at: <https://www.reginfo.gov/public/do/eAgendaMain>; note that using the "Search > Advanced Search" features are most useful. You may also wish to use the links embedded in the spreadsheet to view individual actions.

The Plan Statement of Priorities is available at:

https://www.reginfo.gov/public/jsp/eAgenda/StaticContent/201810/Statement_2000.html.

OMB has released a statement, and EPA is likely to publish a press release today as well. See:

<https://www.whitehouse.gov/briefings-statements/regulatory-relief-efforts-deliver-23-billion-regulatory-cost-savings/>.
